Daniel Hutto

Data Engineering Manager

SUMMARY

Experienced Software Engineering Manager with a track record of successfully developing, motivating, and leading cross-functional teams in high-pressure environments. Proven ability to work with diverse programming languages, frameworks, and platforms to drive transformative change and deliver tangible results. Knowledge in architecting innovative strategies and products to enhance operational efficiency and foster growth. Committed to delivering exceptional client experiences through dedication and a passion for my career.

EXPERIENCE

Press Ganey

Data Engineering Manager

May 2013 - Current

- Co-developed data collection software, serving as the primary investment through two acquisitions.
- Spearheaded integration planning and product management.
- Merged proprietary and third-party data and campaign systems, leading to cost reductions through reduced licensing.
- Led cross-functional discovery and planning teams to drive business improvements.
- Defined and presented strategies to ensure compliance with oversight agency requirements, resulting in continued and expanded lines of business.
- Identified, defined, and resolved product and process issues.
- Served as subject matter expert for business operations.
- Conducted comprehensive product and process training sessions for business analyst and development teams.
- Collaborated with stakeholders across multiple disciplines to align goals and objectives.
- Oversaw and administered program development and data collection for both phone and web platforms.
- Created and maintained data pipelines to enhance data processing efficiency.

iCATI Programmer

July 2012 - May 2013

- Programmed web/phone surveys.
- Conducted program, system, and software release QA.

Concho Parts Warehouse

Jan 2006 - July 2012

Accounts Receivable

- Managed cash flow for branch and client billing support.

EDUCATION

Associates of Science

May 2019

Tarrant County College

University of Texas at Arlington - Pursuing BS in Computer Engineering
